Yu-Gi-Oh! apparently still not reduced, even though it was played on the iPad screen! Okay, maybe I sound like I'm showing a Yu-Gi-Oh game! first on the platform with touchscreen. But I haven't played TCG that long enough, so please understand. Yu-Gi-Oh! Duel generation on iPad! I can say as a tool to practice Yu-Gi-Oh! that is quite good. The game continues as in all Yu-Gi-Oh games! in general. The duel begins with the suit to first determine who moves first. Then the game begins. You a Yu-Gi-Oh player! for a long time you should have known correctly? Five cards in hand, take a card from the deck, and the first turn is not allowed to attack. I'm not too busy with the world of Yu-Gi-Oh! Updated, but I think the maps they provide here are pretty interesting. The decks available in Duel Generation consist of classic decks that are available in the first anime series on decks in Yu-Gi-Oh! 5Ds to Zexal. The scope is quite wide, so I dare to say after you play this game, maybe you will be able to survive if you play Yu-Gi-Oh! in the next hobby store. Duel in Yu-Gi-Oh! Duel Generation also feels quite comfortable and fast. You may be bothered by a number of warnings about the trap/spell effect available, but this is also for the In addition, the alert can be quickly closed. AI offered by this game is also quite challenging. Deck Editor in this game may seem a little confusing when you see it for the first time. But once you get used to it, the way this game sorts the cards turns out to be pretty reasonable and makes it easy to form your deck. Speaking of decking, it would be if there were no booster packs. I think the booster pack in this game makes sense to buy because it doesn't require a large amount of in-game cash. For the visual appearance, this game looks simple and the images on the map look rough. But everything is balanced with cool visual effects. One thing that makes me happy with the presentation of this game is the music that is sung. All the songs that sounded very sound bear mood. If there is a soundtrack that is sold separately, I suggest that you buy it. I don't think this game can compete with Hearthstone's popularity, but I think this game will be very popular with players Yu-Gi-Oh! Veterans or new.
